Abdimaulenov Azizbek

Frontend Developer

As a developer, problem-solving, proactivity and curiosity to learn something new are my most powerful skills.

Experience

○ Kezek Online

08/2021 - 02/2022

- SPA development using React that is used by restaurant customers.
- Implemented multi-language logic.
- Implemented web push notifications using Firebase SDK.
- Adding new features for both administration and client applications using up-to-date technologies and hooks provided by React.
- Core stack - TypeScript, React, Redux, Tailwind, Unit Tests, Git/GitLab

○ Kami QR - @kamiqr.kz

03/2022 - 01/2023

- I was an active part of the team that developed kamiqr.kz, a popular web application that offers online menu for customers, it is used in more than 700 restaurants all around Central Asia, Turkey, Indonesia etc...
- Developed SendPulse for Kami: an application that offers triggered emails, chatbots, scheduled SMS, and web push notifications.
- Core stack - TypeScript, Next.js, React, Redux, MobX, Sass, Git/GitHub

○ MTour - @mtour.kz

02/2023 - 09/2023

Team Leader of the Front-end development team

- Developed a marketplace with aim of tourism in Next.js
- Rewrote an existing CRM application bringing in Feature-Sliced Design (FSD) architectural methodology into the project, which was the key factor in improving the efficiency of development and business processes.
- Implemented code separation methods by separating one large bundle into smaller chunks to optimize performance and reduce loading time.
- Configuring Dockerfile for deployment using Kubernetes in NginX
- As a head of the development team, I consistently met my short and long-term targets.
- Proactively participated in meetings and helped create new practices.
- Core stack - TypeScript, Next.js, React, Zustand, React-Query, Tailwind/Sass, Git/GitHub, Docker, Kubernetes
